7. I believe Bob Sumner to be of the devil himself. He is a bold faced liar. I dare him to prove or even attempt to prove any immorality on my part. If were not for him, I would not be constantly badgered with all these questions concerning Jack Hyles and the Sword of the Lord would not be in the condition it is today. God will take care of Jack Hyles and I believe, at least I am praying, He will take care of Bob Sumner too. If Fundamentalism collapses it will be Sumners fault and a host of other preachers.

8. Yes, John Stancil is the music director at my son Tony's church here in Murfreesboro.

Now you know the impact and influence Jack Hyles has here on our ministry. So if you think I am hanging onto his coattails then so be it. My dear friend, I believe you are sincere and want to do right, but please do not write me again concerning any of this. You have been a very good friend to me through the years I don't want to lose that friendship, but please keep this in the strickest confidence. All of this will pass by soon and we can go on. By the way, you know I will deny all of this if it gets out.

Sincerely,
